Garlinghouse Plan Books

For many years we were engaged in the business of developing new additions and building homes of moderate cost.

As the years went by, homes planned by us became very popular, not only in the city in which we lived, but in the surrounding country and neighboring cities. The demand for our homes was so great that we conceived the idea of publishing the plans for them in book form.

Our first book of residence plans was only a small pamphlet containing thirty designs and was published when bungalows were beginning to be popular, so we named the book "BUNGALOW HOMES."

We have now published seven different editions of "BUNGALOW HOMES," featuring some five hundred different designs, of almost every type of residence, both one and two-story. Our entire time is now devoted to the study and developing of complete plans and the publishing of residence plan books.

Our books and plans have a world-wide distribution. We have sold both plan books and complete plans in every state in the United States and in many foreign countries.

This year we are publishing three books of plans. These new books are: The Eighth Edition of "BUNGALOW HOMES," containing one hundred six designs; "GARLINGHOUSE MODEL HOMES," containing one hundred designs, and "GARLINGHOUSE SMALL HOMES," containing seventy-six designs; making a total of two hundred eighty-two different designs in the three books.

In these books of plans we have put forth our best efforts to serve you and hope they have proven and will continue to prove beneficial to all who use them.

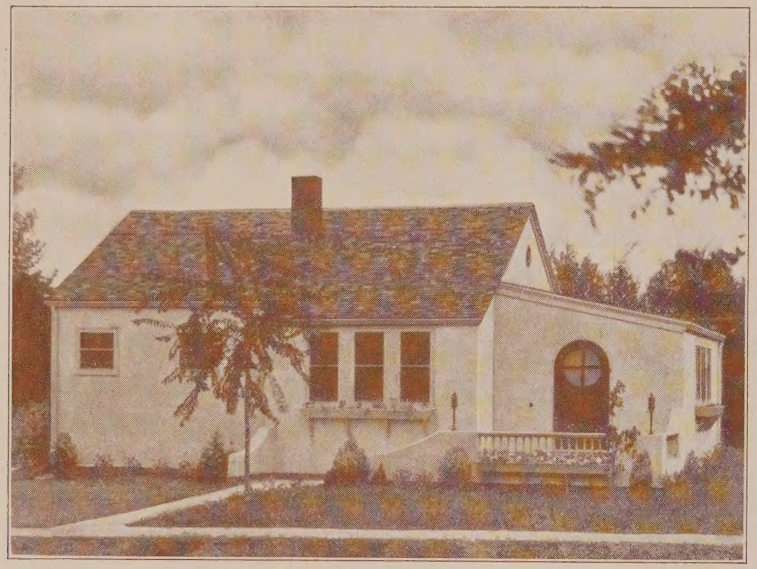
Exterior No. 73

This house has a beautiful exterior of English type, is not overly expensive to build, and has quite an unusual interior arrangement. The rooms are all spacious and exceptionally well ventilated. The living room interior is particularly beautiful with its fireplace and book niches.

Good materials are essential; our detailed plans are more so.



Exterior No. 85

This little Spanish type bungalow has quite a unique living room one step lower than the rest of the house. The plan is very compact and convenient. This design can easily be built on a narrow lot by turning the end to the street and having the approach to the terrace to the front.

Air castles materialize only when you put a foundation under them.

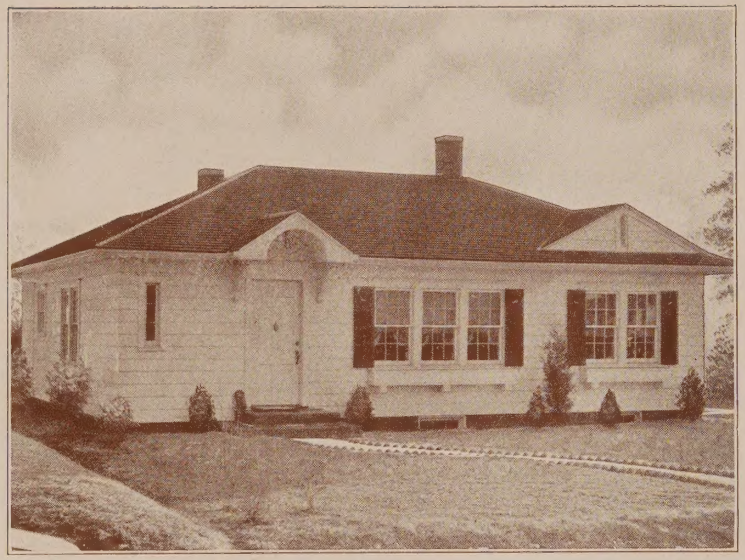
Exterior No. 107

A very attractive and commodious brick design. This house has three bedrooms and every room in the house except the kitchen is accessible to the hall. This home is amply supplied with large closets and the stairs leading up from the hall opens into a very large attic.

"He is happiest who finds peace in his home."



Exterior No. 112

One of our very beautiful and popular designs. The secluded terrace off the living room is a very desirable feature. The arrangement of rooms is excellent and the whole plan makes a very cozy little home. Our complete plans show full basement, all elevations, floor plan and details. With them, there is no question as to how to proceed.

Opportunity knocks once—better be at home to open the door.

Exterior No. 125

A combination of brick and stucco makes this little home exceptionally attractive. The entrance is quite unique. This design is not large and is very inexpensive to build. The plan is very compact yet contains all of the convenience and comfort of a much larger home.

There will be no place like your home if you build it according to our deailed plans.

Exterior No. 130

A deservedly popular design, combining as it does so much of beauty and utility. Stone appropriately trims the brick front. The porch may easily be enclosed, providing a delightful sun room. The unusually large sleeping porch insures summer comfort and year round health.

Our designs are "For talking age and whispering lovers made."

Exterior No. 152

This unusual home is much more commodious than it appears to be. The six rooms are very well arranged to give the most convenience and comfort possible. The exterior is stucco, giving the house an English cottage type, but if you prefer, the house could be sided, giving it more of a colonial effect.

Good materials are essential; our detailed plans are more so.

Exterior No. 194

This shingle bungalow is quite plain yet very attractive and inexpensive to build. If desired, siding can be used quite as effectively on the exterior as the shingles. The fireplace can easily be eliminated, if you wish to save its expense.

Don't start something you cannot finish. Buy our detailed plans; they show you exactly how to proceed.

Exterior No. 246

A beautiful brick and stucco home with a sun room in front. The rock trim and the arched windows and door add greatly to the attractiveness of the exterior. The floor plan is excellent, having six rooms, including the sun room on the main floor and a splendid sleeping porch with two-piece bath on the second floor.

You are mistaken if you think you can build as well or as cheaply as your contractor can.

Exterior No. 251

An inexpensive stucco home of five compact, well arranged rooms. This is an exceptionally good design and would also look very attractive if built with brick exterior. This is the type of house that, if built properly, will be almost free from repairs for many years to come. Our plans are complete and show you just how to proceed.

It is not enough to think things. In order to succeed you must do things.

Exterior No. 411

A very commodious new English type home. The circular stair effect, with iron rail, is quite unusual and exceptionally beautiful. This plan shows an elegant living room, a large sun room and all other rooms large and well ventilated. The house is plentifully supplied with large closets and with about every desirable feature for which one can ask.

Your contractor can make your dreams come true by using our plans.

Exterior No. 422

This design is very neat, practical and inexpensive to build. On the main floor is a large living room, dining room, kitchen with breakfast nook, bedroom, closets, and complete bath, and on the second floor is a fine large sleeping porch, closet and attic space. This is another shingle design that will look equally as well in siding. If desired, the fireplace can easily be eliminated.

Exterior No. 439

Another beautiful two-story home. The plan of this eight-room design shows exceptional convenience. The sun room below with the sleeping porch above are very desirable features, but if not needed can easily be omitted. The very large porch can easily be left open, screened, or enclosed. The exterior is shingled, but would be equally as attractive with wide siding.

Every man is the architect of his own destiny, but he should not build without our detailed plans.

Exterior No. 446

Another neat and simple plan of bungalow with a very attractive and unusual exterior. You will find no waste space in this design, everything is here to make the house entirely complete, very comfortable, homey, and desirable, with every convenience.

The SAVING on Fuel alone makes INSO-BOARD a profitable investment

FREE—Write the Stewart Inso Board Company, St. Joseph, Mo., for a series of free booklets explaining INSO BOARD, its economies and its many uses.

INSO BOARD
DEPENDABLE BUILDING INSULATION

Look into the future and visualize the home of your dreams. You must consider fuel bills as a highly important factor in its upkeep. Investigate that problem as you will, INSO BOARD, the dependable building insulation, offers the most logical solution. INSO BOARD saves one-third in house heating costs (by actual test). That one feature alone makes INSO BOARD a profitable investment in your new home. In addition, INSO BOARD shuts out the heat of summer just as effectively as it conserves the furnace heat in winter. It is a sound deadener and is easily, quickly and economically installed in the home. Ask your builder or lumberman about this dependable product.

INSO BOARD.

COMPLETE PLANS

The designs submitted for your approval in our three books, "BUNGALOW HOMES," "GARLINGHOUSE MODEL HOMES" and "GARLINGHOUSE SMALL HOMES," include every type of residence now being built in the various parts of the United States, from the small, very inexpensive cottage to the $15,000 home.

In these designs you will find individuality, harmony and beauty combined with utility and efficiency.

There is no waste space in our plans. You will find many large closets, attics with stairs where possible, basements, and rooms arranged with thoughtful care for the furniture and the saving of unnecessary steps. Everything that is needed to make the home complete is included in our plans, but many of the features we show can easily be omitted, if desired.

The complete plans for these designs consist of blue prints of all elevations, basement and all floor plans and complete details showing built-in features and intricate parts, all drawn to a scale of not less than ¼ inch to 1 foot. The specifications explain every detail of the construction of the house from the excavation to the interior decoration. The lumber and mill lists consist of an itemized list of the lumber and mill materials needed to build the building, stating where each item should be used.
